### REACH Declaration (EC) No. 1907/2006

Precoplat Präzisions-Leiterplatten-Technik GmbH, 47805 Krefeld, as a manufacturer of printed circuit boards, is a so-called "downstream user" within the meaning of REACH.

We oblige our material suppliers to regularly compare the products and product parts supplied to us with the candidate lists in accordance with the requirements of the REACH Regulation.

As soon as we are informed that our products are subject to information requirements, we will inform you of this without being asked and arrange for an entry to be made in the SCIP database, insofar as this is necessary.

We assure that at the present time all products that we deliver do not contain any substances on the current candidate list in accordance with Article 59 of Regulation (EC) No. 1907/2006 (REACH) above 0.1 % weight by weight.

Irrespective of this, we consistently pursue the implementation of REACH on the part of our suppliers in our own interests and to ensure a high level of product safety.

We are in close communication with the manufacturers of the raw materials and supplies we use and will integrate the pre-registration or later registration of the relevant substances into our supplier qualification.

*The information in this declaration is based on our current knowledge and experience and on information provided by third parties. Any liability or warranty for factors outside our knowledge and sphere of influence is excluded.*
